

UNITED NATIONS COMMAND  
MILITARY ARMISTICE COMMISSION  
APO 301

ONE HUNDRED FORTIETH MEETING  
OF  
THE MILITARY ARMISTICE COMMISSION

HELD AT MAC HQ AREA, KOREA

22 APRIL 1961

MEMBERS PRESENT

UNITED NATIONS COMMAND

M/GEN RICHARD COLLINS, USA  
M/GEN RYU HUNG SOO, ROKA  
BRIG AUBREY D. MILLER, DSO, UKA  
RADM GEORGE W. PRESSEY, USN

KOREAN PEOPLE'S ARMY  
CHINESE PEOPLE'S VOLUNTEERS

M/GEN CHANG CHONG HWAN, KPA  
M/GEN IM CHOL, KPA  
COL LEE CHONG BOM, KPA

Meeting convened at 1030 hours

UNC:

During the afternoon of 20 April 1961, the pilot of an unarmed aircraft of our side which was on a routine training flight became lost and inadvertently crossed the Demilitarized Zone into the area under the military control of your side. This was an error in which there was no hostile intent. When the pilot realized he was over the territory of your side, he headed back to our side.

The United Nations Command regrets this violation of the air space over the territory under the military control of your side. Proper action as required by the Armistice Agreement has been taken.

As my next order of business this morning, I protest a hostile action by the naval forces of your side against the United Nations Command side.

At about 0200 hours, Korean Standard Time, 12 April 1961, 6 PT boats of your side crossed an eastward extension of the Military Demarcation Line in the vicinity of 38 degrees 36 minutes 52 seconds North, 128 degrees 26 minutes 55 seconds East, in formation at a high speed. The 6 PT boats of your side continued their high speed advance toward a vessel of our side, reminiscent of the attack

MAC/140

7/1/61

UNC: (CONTD)

perpetrated by your side less than 5 days before, against the unarmed fishing boats of our side. Although warned to stop their menacing actions, the PT boats of your side continued the provocative advance toward our vessel, forcing the ship of our side to take necessary defensive action. Finding that they had attacked an armed vessel, the PT boats of your side turned and fled north at high speed.

The hostile intent of the vessels of your side is shown by their actions of cruising at high speed in reduced visibility in the area where they had only a few days before attacked fishing boats of our side and kidnapped 6 boats and 43 fishermen.

I strongly protest this further act of aggression by your side and demand that your side investigate this incident, punish those responsible and take firm measures to prevent a recurrence of these acts of war.

I now turn to the subject of the 6 boats and 43 fishermen kidnapped by your side on 7 April 1961. I have received reports this morning of the return of these boats and fishermen. I have nothing further to say on this subject pending complete confirmation of these reports.

KPA/CPV:

Your tirade only reveals that you called today's meeting for the sole purpose of slandering and defaming our side groundlessly and misleading fair public opinion.

Your statement is an out-and-out falsehood which has nothing in common with the truth.

As to the matter of the south Korean fishermen you mentioned about, our side made it clear already at the 139th meeting of this commission that there was no reason for our side to abduct them nor was it necessary to do so.

According to the notification from the authorities concerned of our side, the 43 south Korean fishermen aboard

KPA/CPV: (CONTD)

6 fishing boats who, entering the waters off the east coast of our side on April 7, were engaged in fishing there and later came into a fishing port of our side, were protected and given the most cordial treatment by our authorities concerned, and this morning, they departed for their home aboard their fishing boats with the assistance of our authorities.

However hard your side may distort the facts and fabricate unfounded incidents to slander our side, your side cannot evade the responsibility for the gross violation by your side of the Armistice Agreement occurring one after another nor can your side disguise the aggressive character of the U.S. imperialists.

It has been irrefutably proved by the records of the past meetings of this commission that, for the purpose of provoking another war of aggression, your side has shipped into south Korea various new type weapons including atomic weapons and guided missiles, new type naval vessels and combat aircraft and, with them committed frequently various provocative hostilities against our side on the ground, at sea and in the air.

Also on April 7 last, your side infiltrated the illegally introduced submarine chaser into the coastal waters of our side to commit a hostile act of assaulting our fishermen. And from the beginning of this year alone, those naval vessels of your side which have committed piracies after intruding into the coastal waters of our side number 89 on 88 occasions.

Your side has thus continued to commit provocative hostilities not only at sea or on the ground but also in the air in flagrant violation of the Armistice Agreement.

At about 1816 hours our time on April 10, 1961, two F-102 military aircraft illegally introduced by your side

KPA/CPV: (CONTD)

appearing in the southwesterly direction flew in the air over SOONWI-DO 37 degrees 42 minutes North, 125 degrees 14 minutes East and KIRIN-DO 37 degrees 49 minutes North, 125 degrees 02 minutes East, coastal islands of our side, to carry out reconnaissance and then, at about 1819 hours our time, flew away in the direction of BAEKRYONG-DO of your side.

And at about 1553 hours our time on April 20, 1961, two F-86 military aircraft of your side overflowed the Military Demarcation Line in the vicinity of 38 degrees 12 minutes 50 seconds North, 127 degrees 00 minutes 00 seconds East illegally to intrude into the area under the military control of our side. Passing through the air space over the vicinity of SANGSOOHWAE-RI 38 degrees 20 minutes 40 seconds North, 126 degrees 57 minutes 45 seconds East and CHONKONK-RI 38 degrees 30 minutes 00 seconds North, 126 degrees 27 minutes 30 seconds East, about 5 kilometers west of SHINKYAE, the said military aircraft of your side intruded as far as into the air over the vicinity of KOOKDAE-RI 38 degrees 38 minutes 00 seconds North, 126 degrees 09 minutes 30 seconds East, about twenty kilometers north of SUHUNG. Then confronted with the self-defense measures taken by our side while committing hostile acts, they veered southwest to pass through the air over the vicinity of JOOJI-BONG 38 degrees 11 minutes 00 seconds North, 126 degrees 03 minutes 00 seconds East and CHONGDAN 37 degrees 58 minutes 10 seconds North, 125 degrees 56 minutes 00 seconds East, fleeing in the southern direction at about 1617 hours our time.

Such is the real state of affairs. But in an attempt to evade even slightly the responsibility for its criminal acts and mislead fair public opinion, your side has alleged that the F-86 sabre jet planes of your side which intruded

KPA/CPV: (CONTD)

deep into the rear of our side to commit hostile acts on April 20 violated inadvertently the air over the territory of our side.

But the world public know too well that it is an out-and-out lie for you to allege that the F-86 sabre jet planes intruded as far as 100 kilometers away from the Military Demarcation Line through inadvertency.

With no sophistry and machination can your side distort the true facts of the hostile acts your side committed by infiltrating its military aircraft into the air space over the territory of our side.

The provocative hostilities your side committed recently by dispatching its military aircraft into the air over the territory of our side concurrently with the recent sea intrusions by its naval vessels infiltrated into our coastal waters to make savage attacks upon the peaceable fishermen of our side, constitute not only a flagrant infringement of the Armistice Agreement but a vicious challenge to peace in Korea and a reckless prank of toying with fire to unleash another aggressive war in Korea.

Our side never tolerates such an act of aggression by your side. I lodge a strong protest with your side against the provocative hostilities it committed recently by dispatching its military aircraft into the territorial air of our side in violation of the Preamble and Paragraphs 12 and 16 of the Armistice Agreement in disregard of the repetitive warnings from our side.

At the same time, I strongly demand your side give at this table an immediate assurance that your side will severely punish as required by the Armistice Agreement all of your personnel involved in the recent incidents and take responsible measures to prevent a recurrence of similar hostile acts.

UNC:

You are obviously trying to cover up your guilt in your recent kidnapping and naval attacks by resorting to false charges and abusive propaganda. This can never hide the true facts of your guilt so clearly observed by the Korean people.

The surreptitious intrusion south of the extension of the Military Demarcation Line by 6 PT boats of your side on 12 April 1961, is but another act to heighten the tension in Korea. This act along with the open attack on peaceful Korean fishing boats and a patrol boat of our side by your side's warships on 7 April 1961, shows the total disregard your side holds for the terms and spirit of the Armistice Agreement and for rules of human decency.

I repeat my demands that your side investigate this latest incident of 12 April 1961, punish those responsible and prevent a recurrence of acts of this type.

In so far as the charges you have raised this morning, the United Nations Command in keeping with the letter and spirit of the Armistice Agreement will conduct an investigation into your allegations.

Now with reference to the air violation on 20 April 1961.

As I have already stated, our side has conducted a complete investigation into this matter. The aircraft of our side was unarmed, carried no special equipment, and had no hostile intent. The pilot was lost and was seeking to return to his home base.

The United Nations Command has taken appropriate measures as required by the Armistice Agreement.

The United Nations Command again displaying its high regard for the provisions and spirit of the Armistice Agreement, has conducted a complete and detailed investigation into the alleged sea violations charged by your side at

UNC: (CONTD)

the 136th meeting of the Military Armistice Commission on 2 March 1961.

These charges of your side like many others, have been disclosed to be completely false and concocted in an effort to defame the United Nations Command. They are therefore denied.

This continuous series of false charges by your side is recognized for what it is - part of your mendacious propaganda plan to increase tension and forestall a peaceful solution to Korean unification. I strongly protest and demand that your side cease its campaign of slander against the United Nations Command and live up to the Armistice Agreement.

KPA/CPV:

Nothing is more ridiculous than the speechifying of an aggressor on the so-called peaceful unification, while occupying half the territory of another's country tens of thousands of miles away from his homeland, making preparations for another bloody war emitting smell of powder every day.

Whatever you may say, Korea will certainly be unified by the Korean people themselves by peaceful means and you, U.S. imperialists can by no means be exempted from the responsibility for the crimes committed against the Korean people.

You have again today harped on your worn-out allegation whose falsity has been laid bare in broad daylight in an attempt to cover up the aggressive acts of your side.

But such an attempt of yours is utterly futile.

Your side has alleged with a view to avoiding the responsibility for its own guilt even slightly that the military aircraft of your side which violated our territorial air were QUOTE unarmed aircraft, UNQUOTE This is a most absurd allegation.

KPA/CPV: (CONTD)

It was established by modern observing instruments that the military aircraft of your side were F-86 fighter planes, and UPI also gave a report to this effect on April 20.

However desperately you may defend yourself, you can never succeed in convincing the public that F-86 fighter planes whose mission is to wage battle are QUOTE unarmed aircraft, UNQUOTE

Citing only those incidents which have occurred during the past six months of your tenure of office as the Senior Member of one side to the Military Armistice Commission suffices to show that your side has been frantically engaged in preparations for another war perpetrating all sorts of provocative hostilities against our side, in flagrant disruption and infringement of the Armistice Agreement.

What on earth has your side done since your assignment as the Senior Member of one side?

During your term of office, as is clearly indicated by the records of the past meetings of this Commission, your side has committed such provocative piracies as to dispatch 102 various armed vessels to penetrate into the coastal waters off the east and west coasts of our side on as many as 90 occasions including the criminal acts of having assaulted and abducted our fishermen on December 19, 1960 and April 7, 1961.

Besides, your side has infiltrated during the same period 16 military aircraft of various types into the air space over the territory of our side on 10 occasions and has violated the Armistice Agreement and the Agreements and Understandings between both sides on as many as 206 occasions in the Demilitarized Zone.

What's more, your side has introduced into south Korea large quantities of combat equipment including modern

KPA/CPV: (CONTD)

rocket-equipped naval craft and even the special units which underwent special training.

Not only that, your side has committed fresh criminal acts under the cloak of investigation instead of disposing with good faith of its violations of the Armistice Agreement, while even practicing frauds and deceptions designed to throw random slanders and defamations at our side by trumping up incidents without any factual basis.

Our side entered vigorous protests with your side already at the 139th Military Armistice Commission meeting and at the 232nd Secretaries' meeting against the barbaric aggressive acts of having launched attacks upon the peaceful fishing boats of our side by dispatching its submarine chaser number 706 to the coastal waters of our side.

Instead of accepting these reasonable protests of ours and apologizing to our side, however, your side rather hatched a fresh scheme with the aim of disguising its guilt and misleading fair public opinion.

That is, your side framed up all in fluster as false a report as if our vessels had entered into the coastal waters of your side early on the morning of April 12 last and then had the top-level meeting of the puppet army and the Defense Committee of the House of Representatives called into session where they raised a clamor as if some tensions had been created, while making the puppet Defense Minister issue a war-like statement saying that QUOTE the nation should unite in one body, UNQUOTE let the army be on guard in full preparedness.

A series of such hubbubs caused and disgraceful actions taken by your side in a flurry are crafty tactics to cover up its aggressive acts against our side and divert the attention of the south Korean people who have stood up for freedom and happiness shaking off the yoke of slavery to

KPA/CPV: (CONTD)

the U.S. imperialist aggressive army so that your side may tide over the turbulent political crisis in south Korea, make further frantic preparations for another war and invent fresh pretexts for suppressing our innocent compatriots in south Korea still more harshly.

It will be impossible for your side, however, to deceive or suppress our south Korean compatriots, or cover up its heinous criminal actions by means of such tactics. The only result your side obtains here is self-exposure of the craftiness and of the slyness of U.S. imperialists.

As is shown above, all your side has done are flagrant disruptions and infringements of the Armistice Agreement as well as all sorts of hostile provocations, homicides and robberies incessantly committed against our side on the ground, at sea and in the air.

It is just because of these criminal acts of your side that tensions and the danger of a new war are still being increased in Korea, that Korean armistice are being seriously jeopardized, that Korea's peaceful unification delayed, and that this commission is meeting with obstacles in the way of fulfilling its duties.

If your side has a honest intention to enforce the Armistice Agreement with sincerity, your side should put an end to its violation of the Agreement changing its unjustifiable position, stop at once the preparations for another war continuously made in south Korea now, ship out of Korea all the new type weapons and combat equipment which have been illegally introduced, and then report the results to the Military Armistice Commission.

These are stern requirements of the Armistice Agreement, and an unavoidable obligation of your side.

I demand of you a responsible reply.

UNC:

You are uniformed with respect to military terminology. When an aircraft carries no ammunition for its weapons it is in fact unarmed. I repeat - the aircraft of our side was unarmed, carried no special equipment and had no hostile intent.

I have a new subject.

While the Military Armistice Agreement does not deal with sea areas in specific terms, the intent to effect a cease-fire at sea as well as on land is clear. Our side over the past eight years has patrolled the sea approaches to territory under the control of our side, in order to deny access to infiltrators and to protect the persons and property of our side. Our side has established regulations governing the conduct of fishermen both to provide protection to them and to ensure that they do not act in violation of the Armistice Agreement.

As your side is aware, the spring fishing season in the waters west of the Han River Estuary will soon begin. As in the past, there will be large numbers of fishing boats from your side and from our side in close proximity to each other in these waters. There will also be fishery control craft and units of the sea forces in these waters contiguous to the territories under the control of your side and of our side, within the provisions of the Armistice Agreement.

The fishermen from both sides will be following a peaceful vocation.

With respect to our side, the United Nations Command in coordination with the civilian authorities has instituted measures to control and to protect the ships, boats and persons of our side who may be located in those waters contiguous to our side. These waters will be the same as those used by our side and patrolled by our forces in past

UNC: (CONTD)

years, including previous fishing seasons. The forces of our side will be instructed to protect and control our fishermen and, as heretofore, to observe meticulously the intent and substance of the Military Armistice Agreement with respect to the cessation of hostilities.

During this same season of 1960, your operations and ours, were such that interference between and with the fishing fleets was minimized.

I bring this subject to your attention in the hope that the peaceful fishing fleets of both sides may pursue their endeavors without incident.

KPA/CPV:

As I have already stated, your side dispatched military aircraft into the air space above the territory of our side in the vicinity of 38 degrees 38 minutes 00 seconds North, 126 degrees 09 minutes 30 seconds East, 100 odd kilometers away from the Military Demarcation Line. This is a deliberate and premeditated provocation aimed at carrying out air reconnaissance over the territory of our side.

With such quibbles as a QUOTE minor violation committed inadvertently UNQUOTE and QUOTE unarmed aircraft UNQUOTE therefore, can your side never cover up its criminal act of having dispatched the air bandits deep into the rear of our side.

The historical facts of the past plainly show that your side has attempted to distort the truth about incidents by fabricating absurd falsehoods which could convince nobody whenever your side were placed in a predicament as a result of the disclosure of its crimes.

If you studied the past records, you would be able to recall the fact that one of the two F-51 military aircraft of your side which had intruded into the territorial air of our side on November 7, 1956 was shot down through the

KPA/CPV: (CONTD)

self-defensive measures of our side while they were committing hostile acts.

At that time, too, your side tried to shift the responsibility for the violation onto our side by distorting the true facts while charging our side by alleging in a similar manner as a burglar sounds a burglar's alarm that our side QUOTE attacked UNQUOTE the QUOTE unarmed aircraft UNQUOTE which committed a QUOTE minor violation inadvertently. UNQUOTE

But those F-51 military aircraft of your side intruded into the territorial air over the vicinity of 38 degrees 27 minutes 38 seconds North, 126 degrees 40 minutes 00 seconds East, about 40 kilometers north of the Military Demarcation Line. What's more, they were equipped with as many as six 12.7mm machine guns.

The wreckage of the said F-51 military plane shot down by our side was later delivered to your side, when even your personnel who had persisted in their allegation that the airplane was an QUOTE unarmed plane, UNQUOTE could not but blush at the machine guns installed in it.

This glaring fact alone suffices to substantiate what an absurd allegation you have just repeated.

As was the case with the intrusion of November 7, 1956 by the aforesaid military aircraft of your side, no despicable machinations can help your side describe as QUOTE unarmed aircraft UNQUOTE the F-86 fighters which intruded deep into the rear of our side to commit hostile acts, nor can your side distort the truth about the recent provocation.

The entire Korean people and the peace-loving peoples of the world are now evincing their indignation over the sinister aggressive acts recently committed by your side and closely watching the dangerous prank of toying with fire by your side.

KPA/CPV: (CONTD)

As was made clear in my first statement, your side not only dispatched its sub-chaser into the coastal waters of our side illegally but also made savage attacks against our fishing boats. The true facts of the serious violation by your side of the Armistice Agreement have already been exposed to the whole world.

Whatever attempt you may make, therefore, you can neither distort the truth about the recent incident nor free your side from the responsibility.

As for the QUOTE incident UNQUOTE allegedly to have occurred on April 12 to which you have again referred, it is a fictitious one, as I have already stated, which your side invented with a view to diverting the attention of the world public from the political crisis created in south Korea today and covering up its criminal acts of further aggravating tension in Korea.

You should know that such a lie invented by your side will do you no good.

The south Korean fishermen made a port in the territory of our side of their own will and that all of them have returned to their home. You have called this QUOTE abduction UNQUOTE and what not. By casting such a slur, you have only revealed once again your vicious intention to stand against whatever the Korean people aspire after.

The authorities concerned of our side have already on several occasions issued statements that permission be given to the fishermen of the southern part so as to enable them to enter the fishing grounds of our side to catch fish.

The Korean people who have lived in the same land as a homogeneous nation from ancient times are now suffering from the division of the territory and the split of the nation resulting from the aggressive policy you, U.S. imperialists have pursued. They desire to live in harmony

KPA/CPV: (CONTD)

with each other freely traveling to and from north and south. The fishermen in north and south Korea earnestly wish to be engaged in fishing moving about in the fishing grounds in north and south without any restriction.

Utterly untenable are such words as QUOTE abduction UNQUOTE or QUOTE detention UNQUOTE between us compatriots, brothers, who are living in the same land as a single nation sharing the same desire.

As you are also aware, the records of the past proceedings of the Military Armistice Commission and of its subordinate agencies prove that your side has incessantly dispatched its various armed vessels as well as armed gangs into the coastal waters of our side, abducted our fishermen by force and is still forcibly detaining a large number of them in the most cruel and crafty manner such as threat, intimidation, fraud and deception.

On account of such outrageous action of your side as to disregard the principles of International Law and the provisions of the Armistice Agreement, our fishermen have been detained in south Korea - a land of death - and are floundering at the cross-roads of life and death. They ardently desire to return to their home at an early date. Their family members and friends are also impatiently waiting for their return.

In order to translate into reality the desire of our fishermen who are detained on your side, of their family members and relatives, all the fishermen of our side forcibly abducted by your side must be returned to our side without delay.

I categorically denounce your despicable conduct of having invented a groundless incident to slander our side without foundation and again strongly demand that your side return to our side promptly all of our fishermen

KPA/CPV: (CONTD)

forcibly abducted by your side together with all of their personal belongings.

UNC:

Most of your rambling statement is so patently ridiculous that it warrants no comment.

Your side has been given an answer to your fishermen electing to remain in southern Korea at the 132nd, 133rd, 134th and 135th meetings of this commission. The United Nations Command will not force any man to return to northern Korea against his will.

As you yourself have just said, there is no such word as detention among Koreans. These fishermen were allowed to go where they pleased. They elected to remain on our side.

I have no new matters to bring up. I therefore propose that this meeting recess.

KPA/CPV:

Though you have rambled continuously in hackneyed empty talks in an attempt to cover up the violations by your side of the Armistice Agreement and the aggressive nature of the U.S. imperialists, it is impossible for you to materialize such an evil scheme.

As the records of the past meetings of this commission and its subordinate bodies prove, your side has kept committing criminal acts of dispatching various military aircraft into the air space above the territory of our side in violation of Paragraph 16 of the Armistice Agreement.

In fact, your side has dispatched on 663 occasions a total of 1,351 military aircraft of various types into the air space above the territory of our side since the ceasefire up to date. And during the period from October 25 last to this day alone since your assignment as the Senior Member of one of the sides, your side has committed the

KPA/CPV: (CONTD)

hostilities of dispatching into the air space above the territory of our side a total of 16 military aircraft of various types such as F-102, F-86, L-19 and SC-47 on 10 occasions.

On the 6th day, that is, on October 31st last, after you were appointed as the Senior Member of one of the sides to this commission, your side dispatched one military aircraft respectively into the air space above BIAP-DO 37 degrees 41 minutes 00 seconds North, 125 degrees 05 minutes 30 seconds East and KIRIN-DO 37 degrees 48 minutes 30 seconds North, 125 degrees 01 minute 00 seconds East, coastal islands of our side, and two days later, on November 2nd, your side performed reconnaissance by infiltrating two F-86 military aircraft into the air space in the vicinity of DAIDUKSAN 37 degrees 59 minutes 22 seconds North, 126 degrees 44 minutes 10 seconds East, JUNJAI-RI 37 degrees 58 minutes 30 seconds North, 126 degrees 38 minutes 45 seconds East, YUNISAN 37 degrees 50 minutes 15 seconds North, 126 degrees 38 minutes 15 seconds East and RYUNGJUNG-RI 37 degrees 48 minutes 25 seconds North, 126 degrees 31 minutes 40 seconds East in the area under the military control of our side.

In January this year alone, your side dispatched various military aircraft into the territorial air of our side on 3 occasions on January 5, 9 and 29.

What's more, on April 20, just two days ago, your side committed such willful and plain hostilities as to dispatch two F-86 fighter planes to penetrate deep into the rear of our side, as far as 100 odd kilometers from the Military Demarcation Line, following the intrusion by its F-102 fighter planes on April 10.

Thus, your side has continuously dispatched various military aircraft into the air space over the territory of

KPA/CPV: (CONTD)

our side. It is quite clear that the purpose of your side is to aggravate further the tension in Korea, to enforce more energetically the aggressive policy pursued by it, and, furthermore, to carry out military reconnaissance necessary for provoking another war.

Your side must take instant measures to stop immediately the violations of the Armistice Agreement to dispatch its military aircraft unceasingly into the air space above the territory of our side, punish your personnel involved and report the results to the Military Armistice Commission, desisting from an improper attitude.

UNC:

The record will show that your charges have always been investigated in accordance with the Armistice Agreement. I told you earlier in this meeting those charges you have made today will be investigated, and in one case the investigation has been completed and appropriate action has been taken.

Have you any further business for this meeting?

KPA/CPV:

Whatever sophistry and desperate machination you may indulge in, you can never cover up the incessant, gross violations by your side of the Armistice Agreement nor can you be exempted from the responsibility for them.

As I have already stated, your side has incessantly infiltrated various military aircraft into the territorial air of our side to carry out reconnaissance.

Your side has often dispatched various naval craft to intrude into the coastal waters of our side and often committed such piracies as attacking our vessels, killing and abducting our fishermen.

What is more, your side has illegally shipped into south Korea, after abrogating unilaterally Sub-paragraph

KPA/CPV: (CONTD)

13d of the Armistice Agreement, various new type weapons including atomic weapons and guided missiles and even new forces who have undergone special training so as to handle modern weapons and thereby converted south Korea into a hotbed of atomic war.

Your side has thus been engrossed in reinforcing its armed strength in order to launch another war of aggression while committing provocative hostilities incessantly on the ground, at sea and in the air. Through such criminal acts your side has aggravated tension in Korea and menaced Korean armistice.

Again I demand strongly that your side comply strictly with all terms of the Armistice Agreement, giving up its improper attitude running counter to the requirements of the Agreement.

I agree to your proposal to recess.
